

POLIHIM

LUBRICANTS

ABOUT OUR MOTOR OILS

Our motor oils are engineered to deliver reliable lubrication, superior engine protection, and long-lasting performance across a wide range of vehicles and operating conditions. Each grade is formulated to meet or exceed industry standards, ensuring optimal efficiency and durability.

KEY BENEFITS

- Reduces friction and wear
- Enhances engine cleanliness
- Protects against corrosion and deposits
- Supports efficient fuel consumption
- Ensures smooth cold starts and stable high-temperature performance

5W30 MOTOR OIL

Description:

A versatile, fuel-efficient oil designed for modern petrol and diesel engines. Ideal for year-round use and excellent in cold weather.

Features:

- Superior cold-start lubrication
- Stable viscosity at high temperatures
- Breakdown resistance and oxidation control

Recommended For:

Passenger cars, Light-duty vehicles, Engines requiring low-viscosity oils

Specifications: API SL/CF; ACEA A3/B3, A3/B4; VW 502.00/505.00

Packaging sizes: 1L, 4L, 18L, 205L

5W40 MOTOR OIL

Description:

High-performance oil offering enhanced protection for turbocharged and high-output engines.

Features:

- Helps to keep engines clean and running efficiently
- Excellent high-temperature protection
- Helps to extend engine life by protecting against wear, even in everyday use

Recommended For:

Sports vehicles, petrol, diesel and gas engines. Also suitable for biodiesel and gasoline/ethanol blends

Specifications: API SN/CF; ACEA A3/B3, A3/B4; VW 502.00/505.00; GM LL-A/B-025; Renault RN0700, RN0710

Packaging sizes: 1L, 4L, 18L, 205L

10W40 MOTOR OIL

Description:

A robust, mid-viscosity oil suitable for older engines and temperate weather.

Features:

- Reliable wear protection
- Balanced cold-start and operating-temperature performance
- Protects against thermal breakdown during long drives or heavy use

Recommended For:

High-mileage engines, Light commercial vehicles, Motorcycles (with JASO MA/MA2 rating)

Specifications: API SN/CF; ACEA A3/B3, A3/B4; VW 502 00/505 00; Renault RN0700, RN0710, JASO SG+

Packaging sizes: 1L, 4L, 18L, 205L

15W40 MOTOR OIL

Description:

Heavy-duty oil designed for commercial and industrial engines operating under demanding conditions.

Features:

- High viscosity for strong protection
- Excellent for engines with larger tolerances
- For petrol, diesel and gas engines. Also suitable for biodiesel and gasoline/ethanol blends

Recommended For:

Trucks, Buses, Agricultural machinery, Industrial engines

Specifications: API SL

Packaging sizes: 1L, 4L, 18L, 205L

2T MOTOR OIL

Description:

Specially formulated oil for two-stroke engines where lubrication is delivered through the fuel mixture.

Features:

- Clean-burning to reduce smoke and deposits
- Protects against scuffing and overheating
- Supports longer engine life and consistent performance

Recommended For:

Scooters, Mopeds, Chainsaws, Trimmers, Small marine engines

Specifications: API TC; ISO-L-EGD; JASO FD

Packaging sizes: 1L, 4L, 18L, 205L
